SUMMARY

Front End and Web Developer with a strong foundation in modern web technologies. Proven track record in building responsive, user-focused applications like Art Gallery Management Systems and Expense Trackers by leveraging React, Node.js, and REST APIs. Skilled in Agile methodology, Git version control, and CI/CD pipelines; known for delivering scalable, high-quality code and maintaining performance through rigorous unit testing.

WORK EXPERIENCE

Graphic Designer at Premium Peti

2025-08-01 – 2026-02-01 | Mumbai, Maharashtra

- Designed visually compelling graphics and branding materials for digital and print platforms, including social media creatives, packaging, and promotional campaigns.
- Collaborated with the marketing team to maintain consistent brand identity across all channels.
- Improved audience engagement by creating eye-catching designs, contributing to increased customer interaction and brand visibility.

Social Media Manager & Field Volunteer at NGO (unspecified)

2024-01-01 – 2025-07-01 | Mumbai, Maharashtra

- Led and coordinated beach cleanup initiatives to promote environmental sustainability and community awareness.
- Managed and developed content for the NGO’s Instagram and Facebook platforms, enhancing digital presence and audience engagement.

VOLUNTEERING & LEADERSHIP

Field Volunteer at NGO (unspecified)

- Led beach cleanup drives, promoting environmental awareness and community involvement.
- Managed and created content for the NGO's Instagram and Facebook pages.
- Assisted in organizing on-ground campaigns, handling logistics, and team coordination.

PROJECTS

ART GALLERY MANAGEMENT SYSTEM

- Developed an Art Gallery Management System using Node.js for the backend and REST APIs for database interaction, following Agile methodology for project management.

KNOW YOUR EXPENSE – AN EXPENSE TRACKER

07/2020 – 05/2022

- Developed and deployed a responsive web-based expense tracker application. Managed the development lifecycle using Git with branch-based workflows and pull requests to ensure code quality before deploying the application live.

SORTING VISUALIZER

- Built a responsive Sorting Visualizer using React JS and Tailwind CSS, managed with Git for version control, ensuring cross-browser compatibility and implementing unit testing to verify algorithm accuracy.

PERSONAL PORTFOLIO WEBSITE

- Developed a personal portfolio website to showcase technical projects and skills, deployed using GitHub Pages for high availability and performance.
